

ESOP 2026

TERMS AND CONDITIONS

CHINA

By participating in ESOP 2026, I hereby state that I have read the terms and conditions below and I agree to be bound by them.

I have been invited by Technip Energies N.V. ("Technip Energies") to participate in an offer to subscribe Technip Energies shares (the "ESOP 2026").

I decide to subscribe for Technip Energies shares in the context of the ESOP 2026 share offering and I instruct hereby Amundi ESR to proceed with the subscription on my behalf in the investment formula and up to the investment amounts indicated on the subscription site.

I have read the documents relating to ESOP 2026 and in particular, the Information Brochure, the Country Supplement, the SAR Notice, as well as the rules of the international group's savings plan of Technip Energies ("PEGI"). All documents have been made available to me on the offer website <https://esop.apps.ten.com>.

I note that at the time of my reservation, the subscription price is not yet available. It will be set on June 16, 2026 and communicated to me afterwards.. I will then have the possibility to cancel my reservation during the subscription/revocation period, scheduled from June 19, 2026 to June 23, 2026. I could cancel my reservation in its entirety (but not partially) in each formula, ESOP Classic and/or ESOP Leverage. **In the absence of such revocation, my reservation order will become a final and binding subscription order at the end of the subscription/revocation period.**

Eligibility

I note that in order to be eligible to ESOP 2026, I must be, as on the last day of the subscription/revocation period scheduled on June 23, 2026, an employee of a company participating to the PEGI, with a length of service of at least three months, on a continued basis or not, since January 1st, 2025.

If I am not already a member, my subscription to ESOP 2026 implies membership in the PEGI.

I also duly note that pursuant to provisions of Regulation (EU) n°833/2014 and Regulation (EC) n°765/2006, as amended, the offer is not made to Russian nationals and persons residing in Russia, nor to Belarussian nationals and persons residing in Belarus, except (i) in case of Russian nationals, if those persons are nationals of a EU Member State, of a country member of the European Economic Area or Switzerland, or have a temporary or permanent residence permit in a EU Member State, a country member of the European Economic Area or in Switzerland and (ii) in case of Belarussian nationals, if those persons are nationals of a EU Member State or have a temporary or permanent residence permit in a EU Member State. I hereby confirm that this restriction does not apply to me.

Characteristics of ESOP Classic and ESOP Leverage

In the context of ESOP 2026, I have the possibility to subscribe for Technip Energies shares held in direct form in a securities account opened in my name, in one or both investment formula (ESOP Classic and ESOP Leverage) described below.

The subscription price of a Technip Energies share in ESOP 2026 corresponds to the arithmetic average of the volume-weighted average prices of the Technip Energies share over the 20 trading days preceding the date on which the opening of the subscription/revocation period is set by the Chief Executive Officer of Technip Energies,

acting upon delegation of the Board of Directors (the "**Reference Price**"), minus a discount of 20% (the "**Subscription Price**"). The Reference Price and the Subscription Price will be communicated to me on <https://esop.apps.ten.com>.

I understand that my decision whether or not to participate in ESOP 2026 is entirely voluntary and personal. My decision will have no effect, either positive or negative, on my employment within the Technip Energies group. Participation in ESOP 2026 is separate from and does not form a part of my employment agreement and does not confer upon me any right or entitlement in relation to my employment or subsequent benefits or entitlements, including upon termination.

Additionally, I also note that nothing contained in this document or in any other material made available to me in connection with ESOP 2026 or the PEGI shall confer upon me any right or entitlement in relation to future offers.

ESOP Classic: In this formula, the subscription of Technip Energies shares entitles me to a matching contribution, invested in additional Technip Energies shares, for an amount corresponding to 100% of the amount of my personal contribution in ESOP Classic, up to a maximum of €500.

Under ESOP Classic, my investment will follow the performance of the Technip Energies share listed on Euronext Paris, both upwards and downwards. I am therefore at risk on the amount of my investment made in ESOP Classic, which is not guaranteed in the event of a decrease in the Technip Energies share price.

I have access to Technip Energies' Annual Report available on its website (<https://investors.technipenergies.com>), which contains important information about Technip Energies' business, strategy, risk factors and financial results.

ESOP Leverage: in this formula, for each Technip Energies share subscribed, I will receive a Stock Appreciation Right ("SAR"). All details regarding the SAR are provided in the SAR Notice. The SAR is an undertaking from my employer to pay to me, at the end of the lock-up period or in a case of early release, a cash amount calculated as follows: (i) the higher between either (a) a minimum guaranteed and capitalized return of 4% per year on my personal contribution for the entire duration of the investment, or (b) 7 times the average increase in Technip Energies' share price, if any, compared to the Reference Price, and/or (ii) a protection of my investment in euro if the Technip Energies share price decreases compared to the Subscription Price (except in certain exceptional situations, described in the SAR Notice).

The SAR pay-out is calculated in euro and before any applicable taxes and/or social security charges, further described in the Country Supplement for my country.

Exchange rate

My investment in ESOP 2026 is made in euro. Consequently, if I participate in ESOP 2026 in a country where the currency is different from euro, the amount of my investment in local currency will be converted using the exchange rate set by Technip Energies concurrently with the Subscription Price. This exchange rate will be maintained until the day of issuance of shares in ESOP 2026 but not thereafter.

During the investment period, my investment can be affected (positively or negatively) by fluctuations in the currency exchange rate between the euro and the local currency. If the euro has strengthened against my local currency, the value of my assets expressed in my local currency will increase. On the other hand, if the euro has weakened against my local currency, the value of my assets expressed in my local currency will decrease.

Tax and social security consequences of my investment

I acknowledge that I am aware of the tax and social security consequences that may apply as a result of my subscription in ESOP 2026 and I undertake full responsibility for these consequences.

In particular, I acknowledge that I am liable to my employer for any sums that my employer may have to advance on my behalf in respect of tax and/or social security contributions. Where necessary, my employer may withhold these sums from my salary or from any other amount owed to me, in accordance with applicable legislation.

Detailed information on the tax and social security aspects of ESOP 2026 is provided in the Country Supplement for my country.

Minimum and maximum investment amount

The minimum investment amount in the Offer is the Subscription Price of one share.

The total amount of my investment in ESOP 2026 may not exceed 25% of my estimated gross annual remuneration for 2026.

In order to calculate my investment limit, I must take into account (i) the amount of my personal contribution in ESOP Classic (excluding the amount corresponding to the matching contribution), and (ii) 10 times the amount of my personal contribution in ESOP Leverage. A calculation tool is available on <https://esop.apps.ten.com> to help me verifying that I do not exceed the cap.

If I did not participate in ESOP 2026 during the reservation period, my investment cap during the subscription/revocation period is limited to 2.5% of my estimated gross annual remuneration for 2026, calculated in the same manner as described above.

Payment of the subscription amount

I shall pay the amount of my personal contribution by making a bank transfer to my employer.

In case of default of payment (partial or total), I acknowledge and agree that Technip Energies, or my employer acting on its behalf, may proceed without prior notice or formal notice, to the sale of my shares subscribed in ESOP 2026 and apply the proceeds in whole or in part to reimburse the amount I owe to my employer. If the proceeds of the sale are insufficient to cover due amounts, I will remain liable for the corresponding amount. My employer reserves the right to initiate any action against me to recover the unpaid amounts and/or to deduct them from my salary in compliance with the applicable legislation.

Custody

I will hold my shares in direct form, in a securities account opened in my name and maintained by the French financial institution, Société Générale Securities Services.

During the life of my investment, I will be able to exercise the voting rights attached to shares I hold at the General Shareholders meetings. I note that Technip Energies makes available on its website (<https://www.ten.com>) all information regarding the General Shareholders meetings, including the convening notice containing information on the agenda, resolutions and how to attend and exercise the voting rights. No communication will be provided to me individually prior to the General shareholders meetings.

Lock-up period

My investment in ESOP 2026 is subject to a lock-up period until July 30, 2031, inclusively, except in case of early release such as described in the Country Supplement for my country.

Reduction in case of oversubscription

The number of Technip Energies shares allocated to the Offer corresponds to maximum 1.5% of the share capital of Technip Energies, within an overall limit of total subscription amount of 55 million euros (the "**Ceiling**").

If the amount of investment requests would exceed the Ceiling, a reduction would be carried out in accordance with the following terms:

- An “average subscription amount” will be calculated by dividing the Ceiling by the number of subscription requests received;
- All subscription requests for an amount equal to or less than this “average subscription amount” will be fully satisfied; and
- All subscription requests for an amount greater than the “average subscription” will be fulfilled up to the “average subscription amount” and supplemented proportionally with the remainder of the employee's subscription request based on the amounts remaining to be distributed to reach the Ceiling. In case of subscription to both ESOP Classic and ESOP Leverage, the reduction will be primarily applied on the subscription request for ESOP Leverage.

The amount to be effectively paid will correspond to the amount after applying the reduction.

Processing of personal data

Participation to ESOP 2026 requires processing of my personal data. This processing is fulfilled pursuant to the French Law n° 78-17 of January 6, 1978, as modified, on data processing, data files and individual liberties, and

to the European Regulation EU 2016/679 of April 27, 2016, on the protection of natural persons with regards to the processing of personal data.

An information notice with all the details relating to the processing of data, the parties involved and rights is available on <https://esop.apps.ten.com>. I recognize that my personal data is necessary for my participation in this offering and I hereby consent to collection, processing, storage, and transfer of my personal data to the extent required for my participation in this offering. Without such data, my subscription will not be considered. I have duly noted that my personal data will be processed by Technip Energies, my employer, authorized entities, including service providers mandated for subscription centralizations and PEGI accounts management and the competent authorities entitled to request, collect, keep and process information during the implementation of ESOP 2026 and all operations arising therefrom.

For any questions regarding the processing of data by Technip Energies, I note that the data protection officer can be contacted at the following address: privacy@technipenergies.com.
